

## PT5000 PHOTO TERMINAL

### PT5000 PHOTO TERMINAL

The PT5000 Photo Terminal provides a customer friendly digital photographic printing solution in a counter top terminal. The PT5000 Photo Terminal combines a wide range of media support and a flexible software platform to provide a easy to use digital photo experience that your customers expect from you. The unit comes standard with an internal receipt printer as well as the space to add upgrades. The durable solid steel construction with slide out modules ensures long life and easy access to components for service or upgrades.

### SOFTWARE

Pixology Kiosk software provides superior and innovative work flows that both enhance and simplify the customer experience. The *Express* ordering feature allows for customers with a single selection to order all prints on their digital camera card. For customers that wish to have multiple prints and sizes the *Browse* mode provides a more flexible selection to enable the customer to get exactly the results they want. Included in the software is Pixology IRISS, the world's first fully automatic red-eye removal technology— with no customer intervention.

### CUSTOMIZATION & BRANDING

The flexible software platform provides for easy branding including customized walk up screens, promotional screen savers, and individual receipt printing options. Configuration is easy, password protected software tools allow for quick adjustment of prices and product offerings. Flat surfaces around the 15" touch screen monitor provides for customized Point of Purchase (POP) displays and eye catching advertising. The PT5000 is available in several standard colors including dark gray & computer white, custom colors and graphics also can be supplied to ensure seamless aesthetic integration within your store or an unique, eye catching appearance.

### PRINTING OPTIONS

The PT5000 Photo Terminal can be connected to almost any combination of FotoPoint supplied printers, other printers, in store digital mini labs, and network based printing options.
